NEW TO-DAY.

PORTLAND PRIDAY, OCT 1, 1886.

STRONGER THAN HIS PARTY

No candid observer of national politics can deny that President Clevelang is stronger with the people, if not with his party, than when he was inaugurated He has made some mistakes be has not always been consistent with his profeesions, has fallen short of the standard that he set up for humself. The people know this, and yet they remember that the same criticism that that be jumily applied to Cieveland was untited by Hayes, Garfield and Arthur in a greater or less degree Cleveland is either a more sincere or a shrewder man than he was suspected to be when inaugurated. He has not obeyed all the wishes of the leaders of his party in regard to rewards he has disarmed a good many republican party workers by keeping them in office. To illustrate, in the treasury department the following number of republican appointees still hold office in the different states, Seven collectors of customs in Mains, three collectors of enstone, one general appraiser, one sesistant appraiser, and one assistant treasurer in Massachusetts; one collector of customs, five assistant appraisers, one superintendent of assay two collectors of internal revenue in New York two collectors of custems and one appraiser is Rb.de Island four collectors of customs in New Jersey, one collector of customs in Delaware two collectors of customs, one general appraiser. \$wo appraisers, and one collector of naternal revenue in Maryland one collector of customs esch in Virginia, North Carolina, Florida, Michone collector of customs and one melter in Mon-tana—one collector of customs and one coiner in California, one surveyor of costoms in Ken DCLY. One surveyor, one assistant treas and one assayer in Missouri, one surveyor in Indians, one surveyor and one appraiser in tili-DOIS, two surveyors in Iowa, one general ap-praiser, one melter and refiner, one coiner, and erpervising inspectors, and one collector of in-ternal revenue in Colorado and New Mexico.

partment of state retains a number of republicans; the chief cierk of the pension depart. movals in violation of the letter or defiance president has more than once interfered to k their bourbon zesi to work the party Probably by the end of Cleveland's gamment revealing the end of claverance of the tany democrat wants, and there are comparatively few now, but there was not atter his election the sudden and clean sweep that most persons of both parties expected. Whether the president is a stocere man trying to do best, and sometimes failing short of it, or whether he is an astute politician, he certainly has suc ceeded in steadily gaining rather than losing ground with the people. The mugwungs continue to believe in and support him, the New York Evening Post, the Boston Herald, the Springfield Republican, the New York Times, the New York Herald and the Chicago Times still stand by him. Harper's Weekly is not altogether satisfied, and yet if has not left the Puritan veter dismiss the scandul of the cam-paign of 1884 in the natural feeling of pleasure that map of domestic decency feel when a ma-ture map abandous the selfish life of a bachelor for marriage with a woman of spetiess reputa-tion. The mass of mankind always feet and generally axfrage he sympathetic hope that if a num has not always done as well as he should before marriage he will do his best after he has taken to bimself a good and interesting werean as a wife they land, even if he is not a man of sentiment, heshrewd enough to see that Americans of all parties are too gullant ever to shoot at him again the discreditable scandal that filled the air n the campaign of 1486, and, assuming that he a shrewd stroke, for his pdung wife will say him from any chance of having the empty shell of scandal reloaded and thrown into his camp in

Cleveland is further helped with the powerful numercial classes, because the fear of a finan-al crash, of ruin to business with a change of administration has been dissipated by events, and the bard money, anti-silver policy of the president and Secretary Manning has further helped him to the confidence of the banker and capitalist class. The South is behaving better than at any time since the war, and that has gone far to help Cleveland, who has been singularly fortunate in retaining the almost unantimous support of that section. The disgrunded democrats are nearly all confined to the North. very likely this is due to the superior sagacity of the Southern leaders, who are quick to see that Cleveland is stronger at the North than any oceal in the party and are willing to swalow him without wincing as the only man who has a chapte "to hold the fort" in 1989. When develod came into office professional politi-ciane of the Northern lemocracy expected the nartyr's crown they had lived on the wind pudding of par y in his sast i nuder cfreumstances as let in and discouragemen for many years and they confidently hoped to warm their cost boacks with the loaves and fishes of the crime party fatronage, and they were thoroughly disputed with the president. when they found ut that, either because he was a sincere ref rine: recruse he was gifted who print had rewdness he wis la-posed to a heart estimate to vitra, proceed to the third exaltively to vitted, and the first tenth of the program of the and the first of the new meaning the states where so is a suit for a guest of the democratic plants is to be guest of the democratic plants with the president took become that the president fook become the suit of the president frowhead the final plants is the cure plant they treated has final call play with open or other plants and part of the party plants of the party plants of the party plants of the party plants. cians. President (level and a ful stronger of the the people than is he democratic majority in the bouse teed y. He is the strongest min in his administration stronger than the party dist nominated bins, and so in ich is ronger, than the par y that to refuse to renominate him, if the national convention was held to morrow would be dangerously to tempt defeat.

CITINET MENTERS IN COLLIES

At his time here is much criticism of certain members of the cabinet for alleged interference with their bone political affairs, the charge be ing made that they are stiming the president's order to office better to keep out of politics. In estimating the conduct of these officials the wide difference between column tenumers and ordinary officials about not be overlooked. The former are the political advisers of the prodent and representatives f party policy in the government, while the latter are merely employee bired to do certain business. There is clearly adustinction here, and the home organ of the atternes general is entirely right in claiming that there are no men in the country who, from their position, can more filly appear before the public as political speakers than mem bers of the cabinet, and that there is nothing in the principles of true civil service reform as adand by its ablest exponents which is inconanch action by a cabinet office

There can be no question of propriety when a cabinet member goes to his own or to other states and speaks of political affairs and of the iministration with which he is connected in a high-toned way. It is entirely right and proper for him to discuss policies either from a general or a martisan standpoint, but it is quite amother thing for a member of a cabinet to take part in the local politics of his own or of amother state. He betitties himself said his position and misuses his power when he descends to the dekalls of party management. There is just ground for criti-cum of Mr. Vilas in that he has attempted to

run the demogratic party in Wisconsin and has allowed besses through the patronage of his department to run it sisswhere.

But if Mr. Vilas or any other member of the cabinet has anything to say to the public in exposition of the general policy of the administration, there is no reason why he or any other member shouldn't say it.

THE NEXT HOUSE

There is small present prospect of change in the political complexion of the next house of representatives. Vermont, Maine and Oregon have already elected, and in them there is no have each one reliable democratic district, and one only, but there are two in Connecticut and three in Massachusetts which are more or less close and doubtful. Two of these districts are now represented by democrate, and three by republicans. The democrats will at least their own in these states. In New York, New Jensy and Pensylvens Le republicans are more likely to gam than less, but in Oble there will be democratic loses in consequence of the redistricting of the sixts. In filinois and Indior sounds guitagn a event suspidence off and gain six members, and may gain two in Michi an, but are likely to lose two in Wisconsin. In gan, but are likely to lose two in wisconing. If Minnesota, lows, Konsas and Nebraska there is no chance of republican galas if there is any change it will favor the democrats. In Califor-pla there is likely to be a democratic gain. In the far south the republicans have only one memter to lose, viz in North Carolina. The republicans have one member from Maryland, two from Virginia, one from West Virginia, one from North Carolina, three from Tennessee one from Kentucky, and two from Missouri, o one from actuacy, and two from missour, or eleven in all. The prospect is that the present democratic majority in the house will be but slightly reduced, but it is more likely to be increased than diminished.

THE SILVER DOLLAR.
Senator Sherman announces that he is in favor of an honest dollar, whether of gold of silver, coined at their respective values. For a able financier this is an absord utterance. W must either "fish or cut balt" on this silver business. At the present gold price of silver builton, \$75,000 worth of it would make 100,000 silver dollars. But a year ago it would have taken \$85,000 of builton to make 100,000 silver dollars, and when the standard silver dollar was first isened in 1879, it would have taken 200 000 worth icle show that silver builton within seven year has so violently charged in value that nebody can tell what it will be worth, more or less, in the next two years. It is perfectly clear, it seems to us, that the price of silver builion is so uncertain that Sherman's proposition to make an honest silver dollar is absolutely impracticable. There is one way out, and that is the way that Presidents Arthur and Cleveland; Secvary man I resonant Annual and cavenand and country in the commercial nations of Europe have established a ratio between gold and sliver. Even the old ulverities like Wm D Kelley and a number of democrats have got round to that posi-

London is now growing in population and extent faster than New York. The census taken every ten years during the present century shows the following population.

It will thus be seen that a little over fifty years igo I ondon was no larger than New York is now, as d that within that time it has more than ughs however, included within the metropohs, and if these Marylebone is the largest, with a population of 17,,552, while Lambeth has the largest number of hoders or 58,685, and Greenwich the most seres, or S.M. London city contains only 668 acres, which shows the original size of the town It grew with England's commerce and Scotland's and Ireland's decline, and new has more people than are in the whole of Scotland and almost as many as are in Ireland

Perman B Rater holds that Pension Commis sioner Black has grossly violated the spirit of the civil service reform act. Black, in his tests mony before the senate committee, said. "I have This was a confession of two important facts—first, that he had made partisan removals. second, that such removals deranged and im peded the public business Mr Faton thinks that such a statement demanded investigation from the commission, and adds this important

fact.
When the language appeared I told Commission or Black that I was compelled to believe he had thus discriminated. As a commissioner I prompt ly brought the matter in writing to the attention of the president who as I believe reproved Commissioner Black and put a stop to further discrimination of that nature.
This might have been expected of the Black, who is the smallest soft of Black, who is the smallest soft of Blacknown in the smallest soft of Blacknown in the smallest soft of Blacknown in the smallest soft of Blacknown is the smallest soft of Blacknown in the smallest

The total ration to denge of the touted Sixtee on January 1 of the current year had reached the imposing frare of 1 s + 1 miles. Of this only 11 miles were half in 1889, 1 mg the smallest unlenge constructed in any twelve months of the last few years. The year issums be considered to have been the 1 webb year in railroad construction, and the length of track that will be last in 1855 will be far in excess of the work done in 1851. The share capital of all railroads was \$3,51.,197,832 all these Sigures are for December 31, 1855) the funded debt \$\sigma_{\chi}(\chi_{\chi})_{\chi}(\chi)\$ unfunded debt, \$2.66 108,-281. The samings for the year were \$\frac{3}{2}.68,-Al The earnings for the year was \$200, had expenses \$20 0 1, 62, leaving \$200, the rate of about \$1, 4 . If net earnings, or a the rate of about 3 per cert on the whole capital invested. This is a very large return when it is remembered that it is on a grossly watered stock

There can be no doubt that there will always be printed in Portiand some kind of alleged newspaper, the main object of whose unhappy existence is to snarl and bark at The Original This has been so during much the greater As Into has been so during much the greater part of the time for twenty five years or more, and it may be expected to continue. No one paper of this kind has very long life, but when one does an ther succeeds it, and the great inis sion of this kind of "journalism" is Teaumed and continued. The concern just now in the business differs little from its predecessors, and its successors, one after another will undoubte-edly pursue the same course and experience the usual amount of trouble and distress about The Ohn (Nian It doesn't matter much, mice). only it is amusing to note what then there sects have of 'filling a long telt want.

It is not very entertaining to hear the "p'n los ophers of socialism" in our midst proclaiming it through our streets and from the house, ops that "the remedy for powerty is in destruction of land monopoly," when hardly an acre in ten in Oregon or Washington territory is occu-pled, and the government through its land policy

advises and brges every citizen to become a lanowner and to take the land without interest and without price. Is this a situation in which men ought to look for resources in the theories of H-nry George? The thing to do here is to throw the quackeries of socialism to the dogs, cultivate individualism, and aspire to the easily are nable conditions of thrift and independ ence. Whatever interest there may be in the speculative doctrines of socialism in European specificative doctrines of socialism in Puropean countries, those doctrines bear no message to our people here, save as a delitious babble that leads men in quest of resources where no resources rate to both our transfer to be doctrines in America behaves as a man who had recised to take advice at I sar for highest was

new story is told in connection with the emerkable contest of the Ludor brothers for the government ip of lennesses 'Bob' and 'Ail' both deliver 'est speeches' and never that from them and now it has leaked out that the speeches of bo b were prepared by another rother, named Jun, who made the candidates reheares before him before these set out upon their canvass. All ille members of the family, except Bob, are republicans, and Jun says that in preparing the speeches be endeavoyed to be fair to both sides and that the exigences of the campaign regular him to be neutra

The placers of the district, too, see closuing up in five style, we carry out of the country from \$10,000 to \$15,000 per week in gold dast. The Corar d'Alenes are all right."

THE CARCADE BRANCE

Taking Signal The pilling for the rafaroad infige across the Teannway was finashed this week. The bridges west of Ellemburg will all be of the combination wood and iron pattern, but at ret only false work has been put in owner will be no delay on this account, however, and the rad is now ready for steel to a point some distance beyond Cic-el-um, but the disappointment in getting the steel will prevent completion of the road to Cic-el-um as soon as expected. The fifth crossing, ten and a balf miles beyond Ellenburg, was passed last Saturday, but there is a shortage for rails owing to a large amount ordered for this division being deviated to the Palouse branch, and it will be fully a south before Cic-el-um is reached.

Engineer Engels supplied before the lish of December, and that the road will be finited and equipped by April 30.

LOTES.

The Montana vailway company have ordered the immediate construction of the road from the Anacorda mine, at Botte, to Walkerville.

The Unit & Northern is widening its grade between Pocatello and Fagle Bock, and is preshing work to the usnost. It seems probable that through tars from tunning to Bagle Rock will yet be run this fall.

The Wasser Levis PATES

yet he run this fall.

The Weiser Lock says a party of Union Pacific custness are surveying a line up the Weiser they, starting from the location of the Sepot on the Oregon Short Line The Levider concludes that the Oregon Short Line will be continued on to Lewiston via the route being surveyed.

The harthern The

surreyed.

The Northern Pacific railroad operates 80% incompolive, 48 first-class coaches, 11 third-class coaches, 25 eleging cars, 12 dining cars, 2 chair cas, 35 immigrant sleepers, 35 haggage, mail and express cars, 47% box cars, 87% stock cars 12 leftgerator cars, 30 fruit and beer cars, 20 tat cars, 644 coal cars, 15 caboose cars, besides other rolling stock and three steams 78.

LOCAL AND GENERAL.

MILITIA INSPECTION—The quarterly inspection and muster of First regiment Second brigade O.S. M. took place last evening under the command of Mal. H. M. Taylor. The commanies material several acmories and rendezvoused at 8 o clock at the corner of First and Stark streets. After a sort of a preliminary drill they marched to the Olympic gardens headed by the First regimental band. Here the inspection was had in the presence of a large number of spectators including many ladies. The boys turned out well and nade a fine showing. At the gardens they were runthrough the various evolutions in a man her that would do credit to any of the crack midtle.

Can't farrar 55. Com pany is Capic, Bende 6: 1 is fall all.

Hean's Real Estate Sales—The boom is Albany is still booming. A party there writes as follows noter date of September 30. Iseal estate transactions to the amount of \$40000 have take 1 pace in this city within the past ten days and \$11 mber of other barnatis probably sales, thin \$4000 are being made. The heaviest of the twen made yesterday by D. B. Monteith who sall so Col. T. I perton Hogg president of the Oreg. I lacing railroad the mili property formerly . Since I is chief railroad the mili property formerly . Since I is the coll of the two salls and colining the city and a one half interest in the yearn's block facing the court house for \$10.00 John Conner also perchased of Mr. Monteith forty state it from at the corner of First and Eroad db is street, a chieffertation \$3000. The real estate make in this city was never in their than at the other and the corner of the city and a collection are given as sales are being made in the document of the city and to be erected in the lower part of the city and large street.

Will brand Trial —Jacob Hoffman arrested examination before Justice Tuttle yesterday and was held to await the action of the grand jury Hofman gave A Berkmeier an order on Hichard Freding which read as follows. Me Hichard Everding please pay A Berkmeier SiO and charge the same to my account. When the order was presented the party who held it was informed by Mr Everding that he didnt towe Hofman any money. Hofman's defense is that he should have given the order on R Irrung a soap dealer. A Jeffort was made to have the case dismissed on Hofman setting with Berkmeier and paying the costs. Hoffman seemed at first disposed to settle the matter by tsubse, uputly backed out and couchided to stand trial.

THE STARE BLOCK FIRE—Lesterday morning a great man; visited the scene of the early are at the Pine street and of the Starr block. The man: the Flue stress and of the Starr block. The lumit-nent danger in which the building was phaced was realized when through the burned doors and broken wholess of olds and warnishes were seen, and it was noticed that the fluches had damaged even the cornice above the fourth story. The dan age will probably amount to about 8500. It will be reinstablered that the block had a nar-row escape and the Colon a dock at its pear was noted was actived in a pile of brokes boxes on the lower wharf. Hereafter a the mid-manatic material will not be allowed to accumulated on the remises.

The war not be showed to accumulate on the remises.

CARELESS SHOUTING—At half past \$ 0 clock yesterday morning a shot from a pistol was hred at the southeast corner of Fine and Third, streets. The bullet lodged in the woodwork of the front room lower floor of the building above mentioned at her life the properties of the life says in the latter of the life says in the latter of the latter o

CHARGED WITH STEALING A PAWN TICKET —
Annie Lasierty was arrested and brought before
Justice Tuttle yesterday on two charges of folony
preferred by R. Rosecrans One case is that of
larceny from a dwelling and the other [attempt
hy, to obtain property not her own by false pre
trases. Rosecrans alleges that on "epitember is
last Annie Lasferty stole from him a pawn ticker
for a gold watch and chain of the value of "Lo and
presented it to Uncle Myer the pawnbroker and
endeavered to get the property claiming she was
the owner of it. The accused us released on \$20
bonds and ordered to appear for trial to-day.

NOT THAT KIND OF MAN.

PAYENDER, Lincoln Co., W.T., Sept. 7.
TO THE EDITOR OF THE OREGONIAN
I have just noticed in a copy of the Sunday
Helcome of your city, dated September 18, a scurrious and libelous yarn about Hon Charles M Bradchaw, the republican caudidate for de-egate to congress, representing that gentleman as having been in company with a lewed woman as having been in company with a lew woman while on his return home from the convention which nominated him, and having gone to sleep on the steamer barr with his head resting on the end woman a shouldars, etc. I was with Mr Bradehaw at the convention and ac companied him home, and I can trathfully itselfly that there is not one worf of furth in the statement reterred to It is not only false in every particular, but malindously false, and evidently intended to do the object of its renom a cruel and want in injury before the public. I trust that you will publish this letter, in simply pablic may know to what depths of deptaying his maligners will desdend in order to compass his defeat if possible. Theirs is a despirate case, 'tie true, but they may find it not so truny after all. Mr Bradehaw has employed leading attorneys in your state to demand a retraction or begin suit for libel. It is time to ascertain whether or not scurrilous newspapers have un limited right to anjustly assail the private claracter of any cultwen even when that citiven us a candidate for a public office.

James O Binine's Adminsion to a Personal Friend
—The Has at Rimira and the Temperance Vote
New York Sept. 19—The World's Elmira correspondent telegraphs One of the most earnest
st procters of Biaine in this section is Col was a mistake

I do indeed Mr B line—a serious mistake but
I trust the year 188* I have corrected mistakes
when you are sight the audidate of the great republical rearry
To this polluted procedure.

To this palating prophesy clearly and unmistals ably made Mr Blatine stepped back gracefully lifted his hat and bowed most courtenessy. In the enversation that followed Mr Blaine showed in every way that he expected and was willing to be the candidate of the re-ublican party in 1884. Coll Caldwell considers this the most significant incident by the made public of Mr B sine's desire to run again for the presidency. In relating the incident Coll Caldwell said thave not the shadow of a doubt that lames it liable well be too the shadow of a doubt that lames it liable well be too the first ballot. The republican sentinent in New York Ohio and is embylyonia is for him not day. The West is for him and New England is for him now and will be a 1888 while in 1884 the republicans were lukewarm and wavering. We have no other available rans, swa perhaps berman but Blathe, all things considered is preferable and stronger to the Links World. The Seem by recent editorials in the Irish World. He can carry New York another time. It was not so much flored as himself as the temperance vote that floored as himself as the temperance vote that floored as himself as the temperance vote that floored as himself.

forcing to slundor as the temperation vote that force is in 1884. Of the 3,000 votes that want to [St. John 20 000 were republican and should have gone to Blaine It was a futal mistake that the temperation of the R chiled Borring convertion calling for subit ission of the question of prohibition to the collection of the properties of the problem of prohibition to the land that not been done the temperature vote would have should us to and Blaine would have been president.

been president

The Bewapaper of the Fiture

{From a Letter by Henry Watterson}

Bu, it may be asked, what on the newspaper to
be and with ear it be? It should to begin with
be a history and a complete history of resterday
neatly and justly told. It should to begin with
be a history and a complete history of resterday
neatly and justly told. It should to begin with
be a formed to the life and though and as far as
may be a reflection of the temper and tone of the
people done with ab-older delotify. The newspaper which first additioned these process will be the
papers which have approached thou nearest have
been the greatest practical successes.

statement is ventured that estimates and calcula-tions are all right but that farmers are rushing in supplies and it is are gued that free selling now cannot but help matters later on. However, no little nerve is required to hold wheat at an expense in the face of present conditions. A prominent Chi-cago built says he has given up the fight and thinks that if current will sike up all most to right wheat. eage built says he has given up the fight and thinks that if farmers will sky up all night to rush wheat into sight there is no use in him losing sleep in builting the market. Another Chicago opinton is that there will be little expert demand for two months so far as wheat is concerned. The United Kingdom has harvestop its crop, and as the farmers are as poor as ours, they will self their wheat at once and American will be neglected for a time. Speculators on this side are now carrying the bur den, because both winter and spring wheat farmers are selling having lost money for several years by bolding. A Minneapolis advice states that most of the deliveries the month have been did wheat the deliveries this month have been old wheat of the deliveries this month have been old wheat This may be a straw. Later Russian reports insist the crop is but little it any better than last year s. I ast year s crop was officially put down at 23 % too chetwerts that of 1884 being 43:700.00. This war the winter crop is put down as 60 per cent, wo see than last year and the spring 40 per cent, better making the total about equal to last year. There is now 700,000 qrs of wheat aloat to the continent against 100,000 at same date last year. If this is any index of continental needs, and it probably is the continent will be a very heavy buyer in site of high duties this year. India in the past

alsy is the continent will be a very heavy buyer in spite of high duties this year. India in the past he months has shipped 23 00,000 bushels. In these five months two-thirds of the vear's shipments are usually made and this wo ild make the total for the year 50,000 000 bushels while 45 000 000 is the quantity which linds is credited with having to spure. In the last two weeks of August over 500 000 quarters were dispatched to the continent from America, India and North Russia against only 47 000 juarters for the Uilted higdom a proportion unknown for a long time past. At present the feeling all over seems to be one of east noither adde venturing a very decided oping as to early markets, and both deeming the situation one that will require the eximprove. The local wheat market closes weak index simi con diffions obtaining elsewhere. Buyers are so willing to take hold, and sellers have slowly

not so willing to take hold and sollers have slowly lost the lirm rip enjoyed but a sibrit time ago Exporters have worked welf out of the necessity for tuying wheat and a small number of sellers have concluded that indefinite holding is costly work. They seem more imbined with the spirit of their more Fastern laborers who are now engaged in ping in the visible and banging prices. Most recent suice here include some valley a St. * the usual demand being for a fraction more I little of this grade is selling, buyers refusing to oncede the fraction and to day \$1.2 is a fill quotation. Walia Walia is offered at \$1.4 and a no small quantity has changed hands at this bone flers at the close brought bids of \$1.16 and in all probability the \$1.1, fluore will be shaded very soon. A present tits moted as a foil price. The port tonnage list is down to low proportions present needs being limited with no very limp right once soon to arise. Freights have lost Important ones soon to arise Freights have lost some ground to the advantage of wheat San Francisco has declined in the week as also Chica go and New York Private estimates but the United States crop considerably above the government estimate and have induced selling bast. The following is a comparative statement of grain deliveries from English Isrmers imports into the United hingdom and quantities alloat for the weeks under as below.

AGAINST THE THIRD PARTY MOVEMENT. VANCOUVER, W. T., Sept 27.

TO THE FOILER OF THE ORDER ON IAN would make the sale of intextenting liquors a crime, matum in se, as viewed by the adherents of the prohibition dectrine, matter prohibition, as coked upon by others

It is a well-established fact that no law can euccessfully be enforced except an overwhelm-ing majority of the people living under it are convinced of its justness and wholesomeness. A mere majority supporting a law which makes the doing of a certain act to be a crime is, so far as human experience goes, monificient to make it effective—an instance to the point is the enactment of the laws abelishing slavery and securing to the colored people of our country the same rights as are emjoyed by its white dittens—laws to merre the enactment of which the country pad rivers of blood and millions upon millions of money—but only to witness their total failure in those states where there is no overwhelming ma crity in their support, as far as the rights of the colored people are concerned. convinced of its justness and wholesomeness.

ostried. When, say ninety out of every 100 citizens of a state favor prob bition, it will be timely to enact laws and form parties in its support, until that time comes let us profit by experience, and continue working for such a state of things, without forming a third party, in the pulpit, the school, the home and society I OOKER-ON
